ON SPOT COSY

get comfy, feel cosy

GET COMFY, FEEL COSY

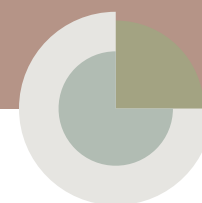

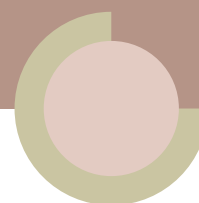

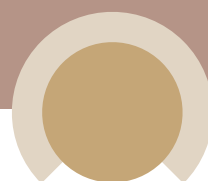

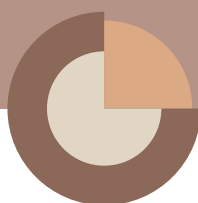

Wherever we work, a pleasant environment is key to productivity and overall well-being. To enjoy a comfortable and cosy seating experience, it is therefore good to have a little extra – more upholstery, more comfort and more individuality. This is exactly what the club chair on spot cosy offers.

SOFT BEING

Soft, round and matt finishes convey authenticity and native character in a homely environment.

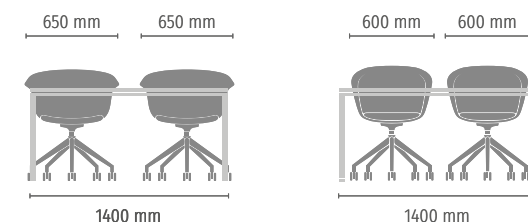

COMPACT AND COMFORTABLE

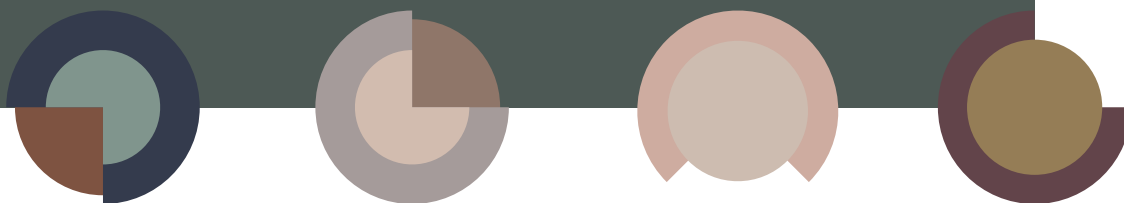

Its compact dimensions and snug design make on spot cosy the ideal companion at desks and dining tables or for quiet reading corners.

URBAN LIVING

Accentuating features and characterful statements turn a room into a powerful place that provides a sense of well-being through depth of colour.

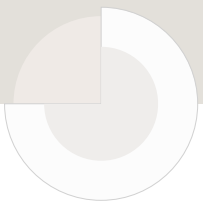

Due to their wider armrests, fully upholstered armchairs often require more space at a standard table. This reduces the number of people that can be accommodated. on spot cosy is different: Thanks to its compact design, it fits everywhere while offering enough freedom of movement.

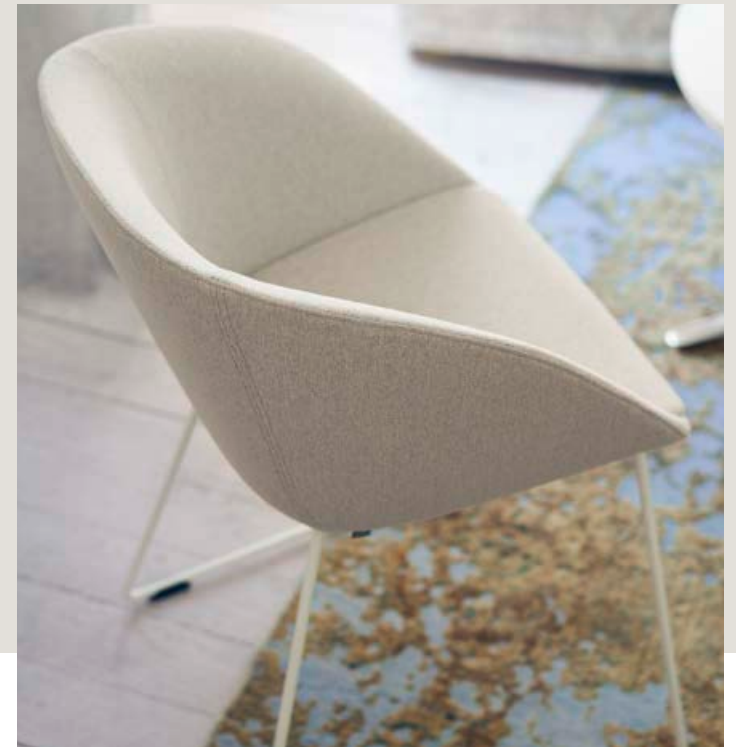

SMART BALANCE

Light, smart and filigree – with these attributes the room is perceived as elegant, spacious and open.

MORE THAN JUST COMFORTABLE

Comfort is already contained in the name: “cosy” stands for comfortable sitting, even over a longer period of time. As a fully upholstered shell chair, on spot cosy provides a good seating experience combined with ergonomic features. These features include the seat pan, the sloping front edge as well as the high backrest and the integrated lumbar support for the lower back.

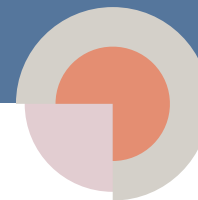

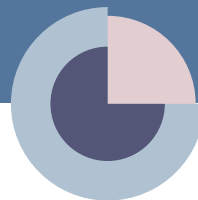

FROM STYLISH TO SIMPLE

Whether for the home office or the living room: on spot cosy can be individually fashioned to match its surroundings and meet your personal requirements. There are almost endless possibilities for combination. Not only the outer and inner shell, the seat upholstery, too, can be matched as desired.

MULTI CREATION

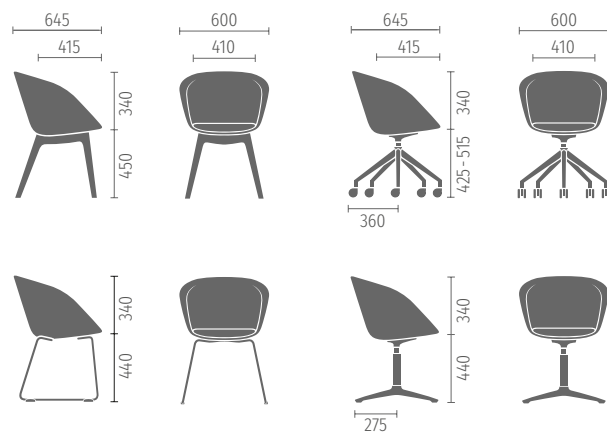

The combination between organic shapes and playful bright colours provides a stimulating and inspiring atmosphere.

ON SPOT COSY

The club chair offers a wide range of configurations which can be combined to create the most suitable model for every occasion.

Available now from your Sedus specialist retailer or online at: www.homeofficeshop.co.uk
